

José Luis Mosconi

I am a technology enthusiast with over **15 years of experience** in the IT industry.

During my career, I have worked on global projects and developed a **strong technical foundation**. I have acquired **valuable soft skills** such as **effective communication**, teamwork, collaboration, **problem-solving**, and critical thinking. I have used these skills in various projects and environments, knowing they are crucial for success in the IT world.

I enjoy working in a team and am always willing to share my knowledge and learn from my colleagues. I strive to maintain **clear and effective communication** with coworkers and clients to ensure smooth project execution.

Storybook. +5 yrs

NodeJs, NestJS, Express, mongoDB, Firebase. +7 yrs

Team Lead & Tech Lead +6 yrs

Experience

Engineering Manager, itti

10/2025 - present Paraguay

As an **Engineering Manager in Marketplace Experience at ITTI**, I lead the **frontend web** and **mobile app** development of an innovative **headless ecommerce platform**, with the mission of **revolutionizing online commerce in Paraguay**.

I manage and mentor a **multidisciplinary team**, fostering a culture of **collaboration, ownership, and continuous learning**, while working closely with **Product and Technical Leadership** to shape the **vision, roadmap, and go-to-market strategy** of the marketplace.

React, React Native, Next.js, Typescript, Storybook, CI/CD, Jest, Firebase

Team Leader Mobile & Team Leader Front-end, Kali

11/2022 - 10/2025 Panamá

As the Team Leader for React Native & React, I lead a team of mobile and front-end developers as we work on creating and maintaining the first international prepaid Visa card with no issuance or maintenance fees. I am responsible for project planning and execution, as well as ensuring that deadlines are met and code quality is maintained. I also collaborate with the product team to define strategy and prioritize features. I am proud to be a part of this innovative company and its excellent group of professionals.

React, React Native, Next.js, Typescript, Storybook, CI/CD, Jest, Firebase

Team Leader Front-end for Grupo SBS / Quicktrade, MooD Technology

05/2021 - 03/2023 Córdoba, Argentina

Develop and ensure the different applications that Grupo SBS offers its clients. Like the mobile APP (Quicktrade) that allows its users to create a virtual wallet, perform daily monitoring of investment returns, access quotes for all capital market products in real time and carry out stock operations.

Angular 13, Ionic 6, React, React Native, Flutter, NodeJS, NestJS, Storybook

Team Leader Front-end & Back-End developer, SBC Capitals/ SBC Technologies

02/2020 - 05/2022 Tulum, México

I led multidisciplinary teams and was responsible for the development, strategy, and management of various technology products, including mobility apps for taxi drivers across the Riviera Maya. Additionally, I coordinated the delivery of technology services for several municipalities in Mexico, ensuring tailored solutions aligned with local needs and working closely with both public and private stakeholders.

Angular 10, Ionic 5, React, React Native, Flutter, NodeJS, GCP.

Front-End developer & Back-End developer, Trylikes

11/2018 - 10/2020 Netherlands, Amsterdam

As a Senior Front-end Developer at Trylikes, I had the opportunity to work on projects for some of the most well-known brands internationally, such as IKEA, McDonald's, Jumbo, PostNL, Shell, [Booking.com](https://www.booking.com), heyDay, Medimarkt and Sodexo. Trylikes specialized in IoT products and provide instant feedback for offline activity to their customers. I was responsible for developing and maintaining high-quality web and mobile applications using cutting-edge technologies like React and Angular. In addition, I collaborated with multidisciplinary teams and provided technical advice to my team members. It was an incredible experience to work on such challenging and rewarding projects, and I am grateful for the opportunity to have been a part of such a talented and committed company.

Angular 7, Ionic 4, React, React Native, Flutter, Firebase, NodeJS

Front-End developer & Back-End developer & Manager, OmochiIT

06/2013 - 12/2020 La Plata, Buenos Aires

I worked as a full-stack developer and manager at **OmochiIT**, leading the development and management of various tech projects for companies in Argentina, the United States, Mexico, Japan, the UK, the Netherlands, and more. I was responsible for client and investor communication, project tracking, team coordination, and technical strategy. I contributed to the development of virtual stores, e-commerce platforms, fashion apps for the Japanese market, inventory systems, and travel booking platforms in Mexico and Argentina. In Japan, I was involved in school digitalization initiatives, and in the Netherlands, I helped develop an internal social network for a multinational company operating in over 18 countries.

Angular+, Ionic 3+, React, React Native, Flutter, Firebase, NodeJS, Storybook

Education

Universidad Tecnológica Nacional FRLP

2010 / 2014 La Plata, Buenos Aires

Systems engineering
